Subject: Ecology News: Public Participation Grants Application Open

Spokane River Regional Toxics Task Force

July 25, 2017

Visit SRRTTF

www.srrttf.org

The Washington Department of Ecology will begin accepting applications for Public Participation Grants (PPGs) at 8 a.m. July 18, 2017. The PPG program is a competitive grant program. Grants are available to individuals affected by a contaminated site, or to non-profit public service organizations. The purpose of the grants is to facilitate public participation in:

- The cleanup of hazardous substance release sites, or
- The implementation of the state's solid and hazardous waste priorities.

Applications are available through Ecology's Administration of Grants and Loans (EAGL) online grant management system. You will need to set up a Secure Access Washington account before you can access EAGL. You will find more information about SAW and EAGL here: <http://www.ecy.wa.gov/funding/EAGL.html>.

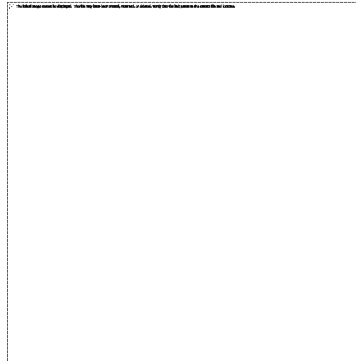

The application will be open until 5 p.m. Aug. 11, 2017. Late applications will not be accepted. Ecology will evaluate and score each eligible application received. Grant funds are available for projects conducted July 1, 2017 through June 30, 2019. Visit our web page for more information on PPG and the application process: <http://www.ecy.wa.gov/programs/swfa/grants/ppg.html>.
